DEPARTMENT: BSC[CS]

***COLLEGE: COLLEGE/ UNIVERSITY: RAJESWARI COLLEGE OF
ARTS AND SCIENCE FOR WOMEN / ANNAMALAI UNIVERSITY***

PROJECT TITLE:

STUDENT PORTFOLIO

The background of the slide is a light gray gradient with several realistic water droplets of various sizes scattered across it. Some droplets are in the top left corner, others are near the bottom right, and a few are in the center. They have highlights and shadows, giving them a 3D appearance.

AGENDA:

- 1.Problem Statement
- 2.Project Overview
- 3.End Users
- 4.Tools and Technologies
- 5.Portfolio design and Layout
- 6.Features and Functionality
- 7.Results and Screenshots
- 8.Conclusion
- 9.Github Link

The background of the slide is a light gray gradient, decorated with numerous realistic water droplets of various sizes. Some droplets are large and prominent, while others are small and scattered. They are rendered with soft shadows and highlights, giving them a three-dimensional appearance.

Problem Statement:

In today's academic and professional environments, students are expected to showcase their skills, achievements, and academic progress in a structured and accessible format. Traditional methods such as printed resumes or static documents do not adequately reflect a student's diverse experiences, evolving skills, or creative work. Additionally, there is often no centralized system for students to collect, organize, and present their academic projects, certifications, extracurricular activities, and personal growth over time.

PROJECT OVERVIEW:

This project aims to develop a digital platform where students can create, manage, and showcase their academic and extracurricular achievements. The system will allow uploading of projects, certificates, and personal information in an organized format. It enhances students' ability to present their skills to educators and employers. The platform will be secure, user-friendly, and easily customizable.

WHO ARE THE END USERS?

End Users of the Student Portfolio System

Students – to create, update, and showcase their portfolios.

Teachers/Mentors – to review, give feedback, or endorse student work.

Recruiters/Employers – to view student portfolios during hiring or internship selection.

Academic Institutions – to track student progress and achievements over time.

Tools and Techniques:

HTML – to structure the portfolio content (projects, achievements, etc.)

CSS – to style the portfolio with layouts, colors, fonts, and responsiveness

JavaScript – to add interactivity (form validation, dynamic sections, image galleries, etc.)

LocalStorage / SessionStorage – to temporarily store user data within the browser

VS Code – as the code editor for development

Git + GitHub – for version control and hosting the project online

POTFOLIO DESIGN AND LAYOUT

Layout Structure

Header

Name, logo, and navigation menu (Home, About, Projects, Contact)

Fixed or sticky for easy access

Hero Section

A short intro with name, photo, and a tagline

Call-to-action button (e.g., “View Resume” or “Contact Me”)

About Me

Brief bio

Skills (can be shown with progress bars or icons)

Projects Section

Cards or grid layout displaying key academic or personal projects

Each card can include title, description, image, and a “View More” button

FEATURES AND FUNCTIONALITY:

Core Features

Responsive Design

Works smoothly on mobile, tablet, and desktop devices.

Interactive Navigation Menu

Smooth scrolling to sections

Hamburger menu for mobile view

Dynamic Project Display

Projects shown using cards or modals

“View More” buttons with toggle/show details

Skills & Progress Bars

Animated skill bars or icons to show proficiency

Contact Form

Form with fields (name, email, message)

JavaScript form validation before submission

RESULTS AND SCREENSHOTS:

[Home](#) [About](#) [Projects](#) [Contact](#)

Welcome to My Portfolio

I'm a student passionate about web development and design.

B.PUSHPASRI

About Me

I'm currently studying Computer Science and love building websites and apps using HTML, CSS, JavaScript, and more.

Projects

Project One

A simple to-do list made with JavaScript.

Project Two

My personal blog using HTML and CSS.

CONCLUSION:

- THIS STUDENT PORTFOLIO PROJECT PROVIDES A SIMPLE YET EFFECTIVE WAY FOR STUDENTS TO SHOWCASE THEIR SKILLS, PROJECTS, AND ACHIEVEMENTS ONLINE. BUILT USING ONLY HTML, CSS, AND JAVASCRIPT, IT ENSURES A RESPONSIVE AND INTERACTIVE USER EXPERIENCE. THE PLATFORM ENHANCES PERSONAL BRANDING AND HELPS STUDENTS STAND OUT TO EDUCATORS AND EMPLOYERS.
